KARE
GENERATION

We present the Fagor KARE generation of dryers. An advanced series of machines designed to increase user satisfaction and attract new customers to your laundry business.

With the KARE generation, all of our innovative features are within your reach. Its user-friendly technology, ergonomic design, and outstanding efficiency guarantee the ultimate care for clothes.

At Fagor, we care about what matters: you, your business, and the environment.

Technology

User friendly and totally programmable microprocessor with a 7" **touchscreen**

USB Connection. PC software free of charge for programming, traceability, data analysis.

You can program time of the day promotions and discounts automatically.

Videos shown on display: ads, instructions (useful for coin laundry).

EASY programmer

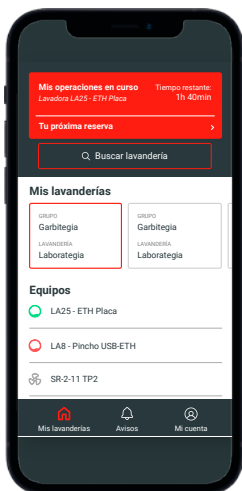

Also available a simple and economic control. Programmable with the external console (optional) or easy display (optional).

Touch Plus Control is the most advanced control on the market. Its new technology and large 7" touch screen will increase user satisfaction and attract new customers.

FagorKconnect Laundry

A connected world,
a world of benefits

Operate a smart laundromat

- Control in real-time earnings, programs, operation, and traceability.
- Remote business management.
- Download data for analysis.
- Create or change pricing plans and promotions.
- Monitor the operation and statistics of your machines.
- Gain customer loyalty.

The ultimate laundry experience in the user's hands

- Easy-to-use app.
- Find the nearest laundromat.
- Consult availability and book machines.
- Pay from your mobile.
- Get the status of your laundry.
- Get news and discounts.
- Monitor your activity.

Efficiency

- **Thermal insulation**
Insulated panels to avoid loss of heat
- **Air Re-Cycle**
Efficient air recovery system. Short drying times, less energy consumption.
- **Efficient Dry**
Intelligent humidity control.
- **Drum inlet temperature control**
A more accurate temperature control in the drum.
- **Full Flow**
New "optimized" system of mixed airflow.
- **Double Flow**
Axial radial airflow in DYNAMIC, COMFORT.

FAGOR dryers provide the most efficient features to reduce energy consumption.

Temperature

Air flow

Cycle time

Machine design

100% Efficiency

Versatility

- **Wet Cleaning**

Most key parts are the same for all models
- **Technical menu**
Machine monitoring, machine error warning, management for traceability and statistics.
Remote desk and data recovery for technicians and maintenance, software update, etc.

ADVANCE +

The most efficient drying system on the market

Since dryers are one of the most energy-consuming machines, Fagor Professional has created the Advance Plus range; featuring one of the most efficient drying systems on the market. This range will not only help protect the environment, but it will also reduce your costs by

UP TO 40%

ADVANCE

Efficient technology, advanced drying

The Advance range is ideal for those looking for high-performing, efficient, and high-quality dryers. The Advance machines meet all the requirements: the latest control technology, robustness, advanced drying functions, and self-diagnostic to optimize maintenance times.

CONCEPT

The perfect balance between quality and price

Fagor Professional designed the Concept range for those looking for the best dryer with easy operation, no complications, and simple maintenance. The models are ready with high-quality features as standard, and they include the EASY control.

Economic Line

Simple, with the same design and robustness

This range is for clients who require a more affordable dryer with high performance and drying quality without compromising robustness.
