AVU Cash HS
Add Value Kiosk

Offer customers the option to pay for services via value card with KioSoft's AVU Cash HS kiosk. This kiosk is the highly secure way for your customers to seamlessly add funds or purchase a value card using cash, credit card or Value Code.

The AVU Kiosk Series utilizes leading technology including KioSoft's Ultra VXT Pro payment terminal, featuring a full color, multilingual touchscreen user interface. Contactless is built into the VXT Pro allowing for NFC acceptance, so no additional card reader component is required.

This AVU not only meets the demand of convenience and flexible payment options from customers, it also meets the demands of Operators such as:

- Reduce or eliminate the cost of coin collection
- Payment Flexibility to customers without increasing costs
- VXT Pro meets IP56 Waterproof & Dust and IK09 Vandal Resistance Ruggedized standards
- Network ready - Ethernet & 4G modem (optional)
- Washboard compatibility
