

# CleanReader Solo

Dedicated Reader for CleanPayMobile

CleanReader Solo and Solo Connect are designed specifically for use with CleanPay Mobile. Solo is installed inside the machine's control panel and provides Bluetooth connectivity with the resident's phone.

KioSoft offers two app only readers:

CleanReader Solo Connect with Wi-Fi built in, offering:

- CleanView - a virtual view of the laundry room showing machine availability
- CleanAlert - Email or SMS notification of cycle completion
- Error reporting and machine statistics

CleanReader Solo – our non-connected reader communicates via the user's phone to update.

*CleanReader Solo Connect*

*CleanReader Solo*

All readers feature:

- Secure Bluetooth connection
- Universal machine support - software supports all available machine types
- No maintenance as it is enclosed behind the control panel
- Configure via Bluetooth using our technician app, KioSoft Laundry Manager (KLM)
- The ability to work with and report coin totals
